

# TRM 445 TREADMILL

Your lifestyle is fitness. And your equipment needs to go the distance. The new Precision™ Series Treadmills are commercial models for your home with the design and features favored by fitness center exercisers and owners. New technology uses your preferences and exercise data to deliver a personalized workout experience that promotes better results and saves you time. The Precision Series is club-proven reliability in a treadmill personalized for your home.

## TRM 445 TREADMII

#### **HIGHLIGHTS**

#### Integrated Footplant Technology™

Exclusive to Precor and used on all of our commercial models, Integrated Footplant Technology<sup>™</sup> reduces stress on your knees, ankles and hips by instantaneously adjusting the belt speed to match the slowing and accelerating natural movement of your foot as you run or walk.

#### **Ground Effects™ Impact Control System**

Patented technology from our commercial treadmills, Ground Effects™ Impact Control provides the perfect amount of cushioning by placing precisely engineered shock absorbers along the front of the deck. At the same time, the rear of the deck is more rigid to give you a stable surface for an easy push off and safe running for all types of exercisers.

#### **Preset Workouts and Customizable Display**

Personalize your workout with 23 preset workouts and 16 that you create. Customize the capacitive touch display to show the data most important to you.

#### **Run or Walk Downhill**

Treadmill deck adjusts to -2% to simulate running or walking downhill. This provides real world conditioning and the ultimate in terrain variety.

#### **Preva® Integration**

Your workout data can be uploaded to the Preva mobile app making it easy to track your goals and achievements.

#### **Lever style Motion Controls**

Just like the Precor models in health clubs, lever style controls for deck elevation and speed are responsive, intuitive and easy to use while on the treadmill.

#### **Heart Rate Monitoring**

Maximize your workout results with touch sensor and wireless heart rate monitoring. Works with any Polar® compatible wireless heart rate transmitter (included with purchase).

#### **SmartRate® Target Heart Zone**

SmartRate helps you stay in your fat burn, cardio or peak target zone for a more efficient cardio and weight loss workout.
