

DISCOVERY™ SERIES
Selectorized Line

DSL414

Converging Chest Press

WITH ADVANCED MOVEMENT DESIGN™

The Discovery Series combines all the functional performance elements demanded from a strength line but with the design and attention to detail you would expect from Precor. The result is an exceptional workout experience for the first-time user or seasoned athlete.

At Precor, we recognize that a great workout is the sum of many parts. In your hands, the products, services and technologies we offer can be combined in countless ways to complement the programs and atmosphere you're creating.

PRECOR®

See it in action at precor.com/discovery

www.precor.com/VSL23

The Discovery Series Selectorized Line Converging Chest Press with Advanced Movement Design allows the user to fully exercise their muscles on a converging axis for optimal muscle contraction. Adjustable handle grips allow users to change the angle of the handles from the seated position, allowing them to push heavy loads without fatiguing the wrist joints.

PRODUCT HIGHLIGHTS

- 1 Delivers More Effective Workouts**
 Designed to demand greater balance and core muscle engagement, the independent arm resistance, converging and diverging movement paths provide a greater range of motion.
- 2 Easy to Get Started Adjustments**
 Precision adjustments, including unique one-handed and highly durable industrial-grade seat adjustment, make it easy and comfortable for users.
- 3 Weight Tower, Shroud and Weight Stack**
 The open and inviting design allows users to easily access the weight stack selector pin and add-on weight lever. Users can easily engage the 5 lbs / 2.3 kg add-on weight with a simple flip of a lever to increase the work load.
- 4 Instructional Placards**
 Improve every workout with easy-to understand, large text-free illustrations that demonstrate correct form at a glance. Users will love the QR codes and URL that provide smart phone links to helpful 30-second instructional videos.
