

# SPINNER® Rally™

INDOOR CYCLE

With the aesthetic appeal and lasting durability of an aluminum frame, the **Spinner® Rally** by Precor is the answer for operators seeking an enhanced indoor cycle experience supported by industry innovation, education, and service. Like every bike in the Spinner® line, the **Spinner® Rally** adds value to

your facility by delivering the performance level of fit, feel, and reliability that Precor and Spinning® are known for. World class programming and education support from Spinning® further enhance your facility's indoor cycle offering.

# SPINNER® Rally™

## 1 Flywheel

43 lb. perimeter weighted flywheel provides a superior ride feel whether you select the true to our roots chain drive or the quieter smoother belt drive system.

## 2 Aluminum Frame

The all aluminum frame features rounded tubing to shed sweat and offers the best corrosion resistance. The stamped frame elements shield and protect components while giving a high quality design appearance.

## 3 Durability

Durability is improved by the oversized cranks and the patented Morse taper pedal and bottom bracket interface.

## 4 Adjustments

Micro-adjust fore-aft seat and handle bar adjustments, height adjustments and oversized asymmetric pop-pin knobs provide an easy-to-use and personalized fit for riders of all sizes.

## 5 Rear Stabilizer

Thoughtful design elements, like rear stabilizer covers that protect from exerciser's cleats when stretching and nylon levelling feet, make the Spinner® Rally rust resistant and easier to own.

## CONSOLE

The easy-to-read Spinning® Studio console can be added to any model of Spinner® bikes. The latest Spinning® console technology will automatically pair with any ANT+™ compatible heart rate monitor and also features low power consumption, a large backlit display, and code memory during battery replacement.

## READOUT INCLUDES:

- Cadence (Pedal RPM)
- Heart Rate/Pulse
- Time
- Distance
- Calories
- Low Battery Indicator

## PRODUCT SPECIFICATIONS
