

SPINNER® Shift™

INDOOR CYCLE

With an oversized steel frame and increased handlebar adjustment options for all sizes of riders, the **Spinner® Shift** by Precor is the solution for operators seeking to add a differentiated indoor cycle experience that is supported by experience-driven innovation, education and service to their facility.

Like every bike in the Spinner® line, the **Spinner® Shift** adds value to your facility by delivering the fit, feel and reliability that Precor and Spinning® are known for with the best programming and education support to enhance your facility's indoor cycle offering.

PRECOR® | **SPINNING®**

SPINNER® Shift™

1 Flywheel

43 lb. perimeter weighted flywheel provides a superior ride feel whether you select the true to our roots chain drive or the quieter smoother belt drive system.

2 Steel Frame

Step up to the oversized steel frame for increased stiffness and a improved ride feel. The Spinner® Shift also adds aluminum stabilizers both front and rear for better corrosion resistance.

3 Durability

Durability is improved by the oversized cranks and the patented Morse taper pedal and bottom bracket interface.

4 Adjustments

Micro-adjust fore-aft seat and handle bar adjustments, height adjustments and oversized asymmetric pop-pin knobs provide an easy-to-use and personalized fit for riders of all sizes.

5 Rear Stabilizer

Thoughtful design elements, like rear stabilizer covers that protect from exerciser's cleats when stretching and nylon levelling feet, make the Spinner® Shift rust resistant and easier to own.

CONSOLE

The easy-to-read Spinning® Studio console can be added to any model of Spinner® bikes. The latest Spinning® console technology will automatically pair with any ANT+™ compatible heart rate monitor and also features low power consumption, a large backlit display, and code memory during battery replacement.

READOUT INCLUDES:

- Cadence (Pedal RPM)
- Heart Rate/Pulse
- Time
- Distance
- Calories
- Low Battery Indicator
