Angled Leg Press

DISCOVERY™ SERIES
Plate Loaded Line

See it in action at www.precor.com

www.precor.com/VPL-601

The Discovery Series Plate Loaded Line Angled Leg Press features a 45 degree angled carriage sled and an optimized seat design for precise body positioning and support. The placement of the weight horns allows for easy loading of weight plates and a unique, oversized curved foot platform results in an incredibly solid, smooth and secure user experience.

PRODUCT HIGHLIGHTS

- 1 Curved Foot Platform**
An oversized, non-slip, curved foot platform with built in Calf Raise allows for full foot contact throughout the range of motion.
- 2 Easy to Use Adjustments**
Dual rotating carriage stop handles feature adjustable two stop positions to accommodate users of all sizes. A foot activated seat back adjustment makes personalization quick and easy.
- 3 Secure**
Weight carriage stops are visible from the exerciser position so the user has visual confirmation that the carriage is securely positioned on the stops. A four position adjustable fail safe stop allows for optimal confidence for the exerciser and the facility operator.
- 4 Weight Plate Storage**
Weight plate storage is optimized for easy loading and unloading with weight plate horns positioned at a height that is within reach for a wide range of exercisers.
